**Attachments:** HDMA Memo In Support- emergency delivery legislation.pdf; HDMA support letter - S 524 (CARA).pdf

Beth –

Sorry for the delay on this project, but I was really hoping to find something. No one can reference any blanket letter of support that we have issued on Opioid abuse issues in the past outside of our support for CARA at the federal level (attached). Between you and I, I totally agree that we need to begin openly supporting some measures rather than always opposing. We were going to support the Governors opioid abuse package in CT but it moved before we could even get a letter out.

Bottom line is I talked with both Patrick and Liz and they cannot recall any time that we openly and publicly supported an opioid abuse prevention measure.

Hi Matt - have you been able to find anything? Any state bills or approaches we have ever been able to say yes we support this as an effort to address opioid abuse?

Thank you. No worries I feel the same - trying to get a feel for what has been done before my time/while I was gone from the company too. Just want to share with some folks internally what we have been able to say we support in the states re approaches to address opioid crisis.

Again, sorry. I will need to dig through the old files for these since they were before my time. I have not issued a letter of support since I was here and not sure who may have.

Matt – can you send the letter HDA sent last year in CT supporting the Governor’s opioid legislation? And also send any other letters that HAD has sent that are supportive of opioid legislation similar to what NC is proposing? Thank you.
